

LEANDRO P. FRANCIA

Developer

Goa, Camarines Sur, Philippines • +63 930 675 0788 • personal.emailleandro552@gmail.com • LinkedIn: Leandro Francia

PROFESSIONAL SUMMARY

Innovative Computer Science graduate with a strong foundation in programming and automated system design. Expert in developing task-specific Agentic AI solutions and automating complex business workflows, including procurement and bidding processes. Proficient in modern AI development tools and a wide array of programming languages, with a proven track record of maintaining high system performance in collaborative environments. Proficient in Python, HTML, CSS, and JavaScript, with knowledge of SQL, React, C, and C++. Recognized for quick learning and adaptability. Eager to contribute to software development projects and IT operations in a collaborative, solution-oriented environment.

SKILLS & COMPETENCIES

- **Programming skills:** Proficient in **Python, JavaScript, TypeScript, HTML5**; Beginner in **Rust, Java, SQL, R, C, and C++** and frameworks such as Tauri v2, React, Flask, Angular. Working knowledge for system such as Git/GitHub, Node.js.
- **Agentic AI Engineering:** Specialist in building agentic systems tailored for specific tasks; proficient in **OpenClaw, Paperclip, Claude Code, Cursor, and Codex**.
- **Technical Proficiency:** Microsoft Office Suite, file management, and proficiency in tables and data visualization.
- **Machine Learning & AI:** Hands-on experience with TensorFlow, PyTorch, and Ultralytics for building, training, and deploying deep learning models.
- **Specialized Knowledge:** Business process automation, Procurement and Bidding workflows, and technical documentation.

EDUCATION

Bicol University

Bachelor of Science in Computer Science

Graduated with Cum Laude

San Rafael National High School

Graduated with Honors under Science-Oriented Curriculum

Best Research Awardee

Legazpi City, Philippines

2020-2024

San Rafael, Tigaon, Camarines Sur

2014-2020

EXPERIENCE

QUANBY SOLUTIONS Inc. | Legazpi, City Philippines

Agentic Systems Engineer / Procurement | April 2026 – May 2026

- Architect and deploy agentic AI systems customized for specialized organizational tasks.
- Bridge the gap between IT and operations by serving in the Procurement Department, gaining deep domain knowledge in bidding processes.
- Designed and implemented automation scripts and AI agents to streamline procurement and bidding, significantly reducing manual overhead.
- Made some strides on automating the parts of the Procurement and Bidding team.

BICOL UNIVERSITY | Legazpi City, Philippines

Research Assistant | June 2023 – August 2023

- Assisted the professor in all aspects of office operations.
- Followed detailed directions from management to complete daily paperwork.
- Assigned in computer data entry.

MAGNETIC MEDIA | New York, USA

Video Editor – Free Lance | October 2024 – March 2025

- Edited promotional videos, commercials, and digital ads aligned with brand and campaign objectives.
- Maintained brand consistency and optimized videos for audience engagement and performance

ACCOMPLISHMENT

- Designed and built a mobile app for skin disease detection using advanced image classification (YOLOv8, GANs) and an anatomy chatbot; included job search integration via the Indeed API as part of college thesis project.
- Successfully designed and deployed an environment using **Docker** and **GitHub Actions**, achieving a fully automated workflow for an Angular/Flask application.
- Made a working architecture for an easy workflow automation of Procurement and Bidding by scraping PhilGEPS.
- IBM SkillsBuild Web Development Fundamentals
- Achieved Professional Eligibility – Civil Service Commission, Philippines.
